

Get 5,000 AI Credits for ₹0 — Complete Setup Guide

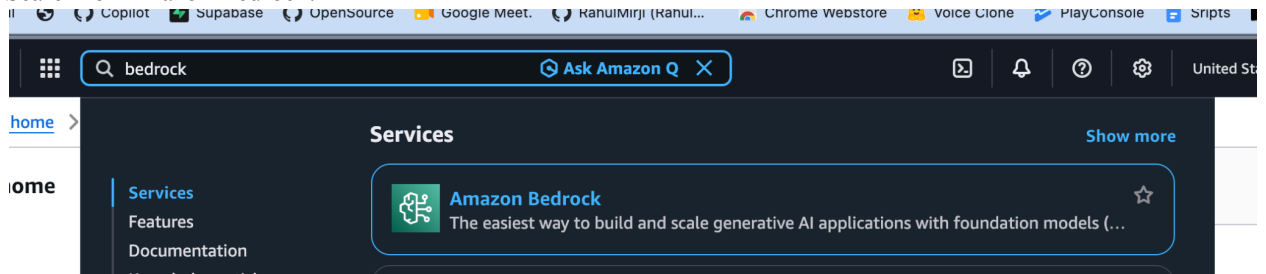

Want to get 5,000 AI credits for ₹0? Follow these steps carefully.

Step 1: Create an AWS Account

- Create an AWS account and complete the required account setup.

Step 2: Open Amazon Bedrock

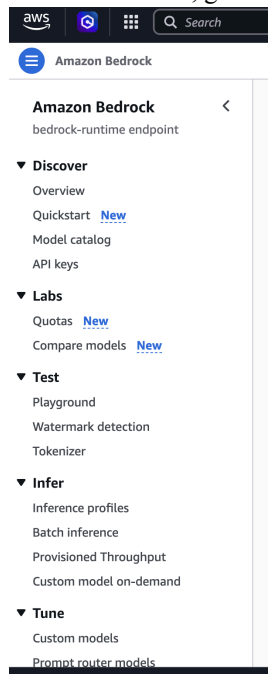

- Log in to your AWS account.
- Search for Amazon Bedrock.

- Open Amazon Bedrock.

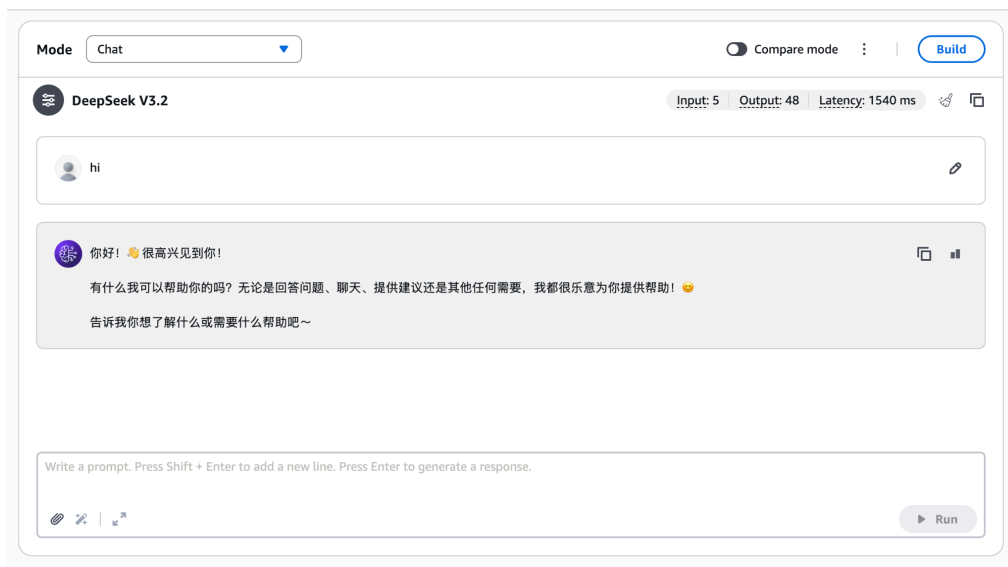

Step 3: Test a Model

- In the left sidebar, go to Test → Playgrounds.

- Select an available model.

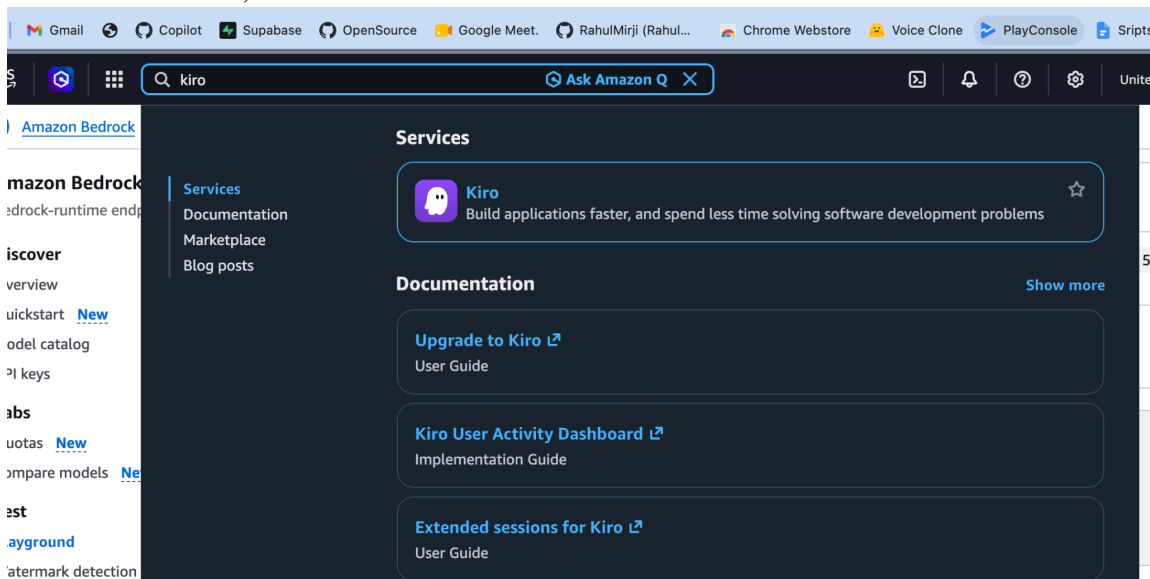

- I recommend trying DeepSeek.

- Send a simple prompt and make sure the model responds successfully.

Step 4: Find Kiro

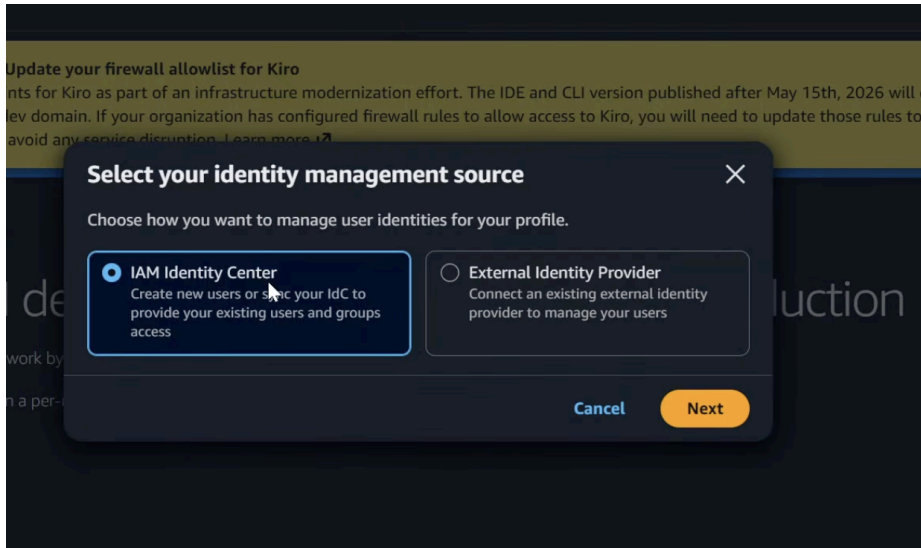

- In the AWS search bar, search for Kiro.

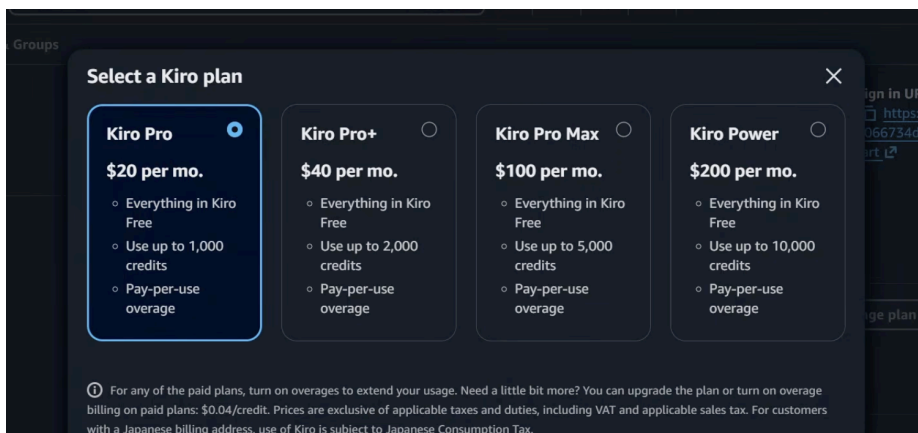

- Open Kiro and click Sign up.

Step 5: Select the Plan

- Choose IAM Identity Center when prompted.

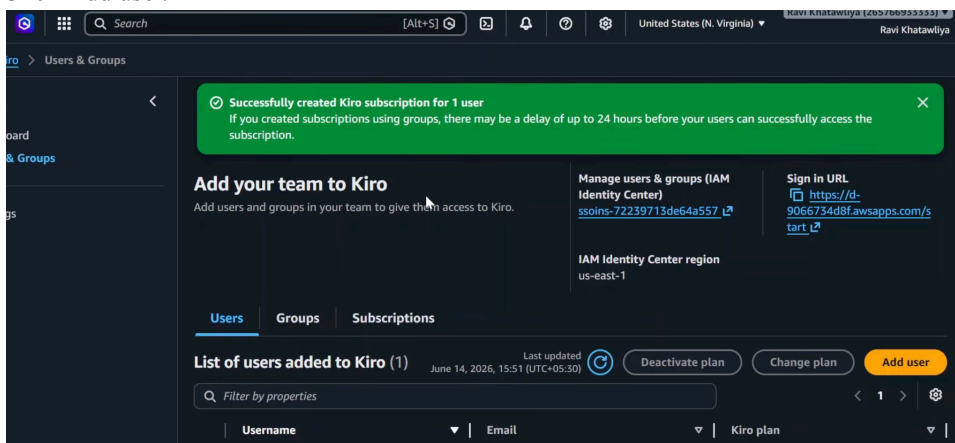

- Select the **\$100** plan.

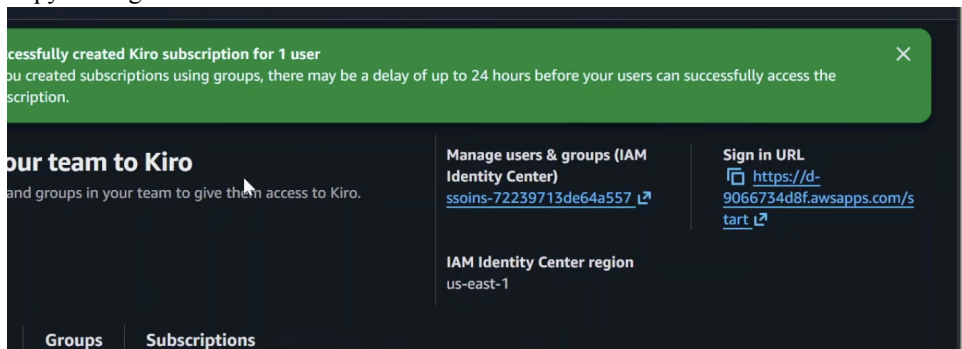

Step 6: Add Your User

- Click Add user.

- Select your user account associated with your email address.

- Copy the Sign-in URL shown on the screen. You will need it later.

Step 7: Sign in to Kiro

- Open Kiro.
- Select Organization Login.
- Paste the Sign-in URL you copied earlier.
- Leave the us-east-1 field empty.
- Click Continue.

Step 8: Create Your Password

- Check your email for the Kiro login invitation.
- Open the email and follow the link.
- Create a password for your account.
- Use the newly created password to complete the Kiro login.

Step 9: Check Your Credits

Once you're successfully logged into Kiro, check your account.

 **You should now have 5,000 Kiro credits available.**
